"Confidence in textiles – Tested for harmful substances according
to Oeko-Tex® Standard 100"

Test no. of first certification (master no.) : 11.HTR.95959

Note/s : The certificate shall be issued in English and German language.

This test report comprises 4 pages

The test results relate only to the test samples submitted. This test report must only be reproduced in full and not in extract form. Use of the test report in advertising or the publication of free interpretations of the test results is only allowed with the express permission of Forschungsinstitut Hohenstein. Remaining test material will usually be destroyed after 3 months. Our terms of business shall apply, www.hohenstein.de/pdf/agb_e.pdf

15. January 2013

For technical reasons, the Institute will allocate a new test number to each order for the renewal of a certificate.

The renewed certificate will always be issued under the master number indicated in the first certification. The master number in brackets will be suffixed to the current test number of this expertise and will serve to identify the relevant product. The additional designation "ZV" with a number indicates the number of times the certificate has been renewed.

The application for renewal of the certificate was submitted using the relevant forms issued for this purpose.

The applicant enclosed the declaration of conformity.

The originals of all necessary documents have been signed with a legally binding signature.

The orderer confirmed that no biological active product is used.

Further the orderer confirmed that no flame retardant product is used.

Information is provided regarding following changes:

- The scope was changed. Company name and address was changed.

Copies of Oeko-Tex® certificates for the products in use were enclosed with the application.

All certificates were valid at the date of application for certification.

The orderer has stated in a legally binding declaration that there is no additional wet treatment or other chemical treatment. Only mechanical changes are made where necessary.

The application was made for the following article group:

Bathrobe, terry towel, beach towel, bath towel, wash glove (with and without embroidery, hood and piping), fitted sheet, loincloth and quilt cover set, made of 100% cotton woven terry/velvet fabric, dyed, yarn dyed and reactive printed, made of cotton/polyester terry and woven fabric, dyed, made of 100% polyester, terry fabric dyed as well as made of 100% cotton, woven fabric, dyed and reactive printed, including accessories (sewing and embroidery thread, nonwoven, elastic tape, woven and printed labels); exclusively produced from material certified according to Oeko-Tex® Standard 100.

The four product categories specified in Oeko-Tex® Standard 100 are described as follows:

Product-class	Definition
I	Products for babies Products for babies in context with this standard are all articles, basic materials and accessories, which are provided for the production of articles for babies and children up to 36 months with the exception of leather clothing.
II	Products with direct contact to skin Skin contact articles are those which are worn with a large part of their surface in direct contact with the skin (e.g. blouses, shirts, underwear etc.).

15. January 2013

Product-class	Definition
III	Products without direct contact to skin No skin contact articles are those which are worn with only a little part of their surface in direct contact with the skin (e.g. Stuffings, linings etc.).
IV	Decoration material Decoration material in context with this standard are all articles including initial products and accessories which are used for decoration such as table clothes, wall coverings, furnishing fabrics and curtains, upholstery fabrics and floor coverings.

According to the information provided by the orderer and to the specified area of use, product class I is applicable.

Representative sample material has been submitted.

Test Result/s

Laboratory tests were not required. The articles are produced exclusively from Oeko-Tex® certified source materials. The certificates of the source materials have been submitted to proof this.

Conclusion

The material for which the certification was applied fulfils the specific requirements for product class I of Oeko-Tex® Standard 100.

It is representative of the article group for which an application for certification was made.

15. January 2013

The certification of the following article group is approved:

Bathrobe, terry towel, beach towel, bath towel, wash glove (with and without embroidery, hood and piping), fitted sheet, loincloth and quilt cover set, made of 100% cotton woven terry/velvet fabric, dyed, yarn dyed and reactive printed, made of cotton/polyester terry and woven fabric, dyed, made of 100% polyester, terry fabric dyed as well as made of 100% cotton, woven fabric, dyed and reactive printed, including accessories (sewing and embroidery thread, nonwoven, elastic tape, woven and printed labels); exclusively produced from material certified according to Oeko-Tex® Standard 100.

Bademantel, Frottee-Handtuch, Strandtuch, Badetuch, Waschhandschuhe (mit und ohne Stickerei, Haube und Einfassband), Spannbettlaken, Lendenschurz und Bettbezug Set, aus Frotte und Samt aus 100% Baumwolle, gefärbt, garngefärbt und reaktive bedruckt, aus Frotte und Gewebe aus Baumwolle/Polyester, gefärbt, aus Frotte aus 100% Polyester, gefärbt sowie aus Gewebe aus 100% Baumwolle, gefärbt und reaktive bedruckt, einschl. Zubehör (Näh- und Stickgarn, Vlies, elastisches Band, gewebte und bedruckte Etiketten); ausschließlich hergestellt aus nach Oeko-Tex® Standard 100 zertifizierten Materialien.

Each holder of certificate has signed for the quality of his articles on his own responsibility. This is in accordance with the given declaration of conformity. He is committed to ensure this by suitable and sufficient spot checks. This commitment includes the quality of bought materials, too. In the case of delegating parts of this quality assurance to others the certifying body must be fully acquainted (see point 4 "Conformity declaration").

Oeko-Tex® is authorized to carry out spot checks in order to inspect the certified goods. The certificate holder will receive a separate test report with the results of these inspections.

If the spot checks reveal a deviation from the limit values, additional tests will have to be carried out. The relevant costs will be charged to the certificate holder.

The applicant is responsible for checking the validity of the certificates issued to his suppliers.

If the term of validity of these certificates expires within the term of validity of the applicant's certificate, he is obliged to request updated or extended certificates from his suppliers.

Copies of updated certificates from suppliers should be presented as proof and for documentation purposes under the test number of the applicant's certificate.

The actual version of Oeko-Tex® Standard 100 is edition 01/2013. It can be downloaded directly from the Oeko-Tex® Homepage (<http://www.oeko-tex.com>).
